Healthy People in Healthy Communities

Box Elder, Cache & Rich County, Utah

PUBLISHED MAY 2018

INTRODUCTION

A LETTER FROM OUR DIRECTOR

Lloyd Berentzen, MBA
Health Officer & Director
Bear River Health Department

The Bear River Health Department (BRHD) is pleased to release its 2018-2022 Strategic plan. This plan has been reviewed and approved by the BRHD Board of Health. Employees representing all Divisions of the BRHD thoughtfully created this plan to help the Department best meet the public health needs of the County. It is my hope that this plan will empower all of our employees to move in the common direction of achieving our vision while consistently fulfilling our mission.

This strategic plan formalizes the broad goals the BRHD will focus on for the next five years. This plan will help the Department by providing a clear picture of where it is heading, the goals it plans to achieve, and how it plans to achieve those goals. Our strategic priorities for this plan include:

- Healthiest People
- A Great Organization
- Community Partnerships
- Increased Access to Services

On the following pages, these strategic priorities are more specifically defined with accompanying areas of emphasis to help ensure our success. The responsibilities for the specific activities that will lead to achieving the desired outcomes of the strategic priorities, and the accompanying performance measures that will indicate progress, will reside within the Department's individual divisions, leadership team, and with our Board of Health.

We all play an important role in ensuring the Bear River Health District remains a healthy place to live, work, and grow. I look forward to working with each of you, and our many community partners, to realize our vision.

We appreciate the Utah Department of Health for sharing their Strategic Plan after which ours was modeled.

Healthy People in Healthy Communities

Mission Statement

Prevent disease, promote healthy lifestyles, and protect the community & environment.

Vision

Healthy People in Healthy Communities.

V A L U E S

- **QUALITY:** Commitment to Excellence
- **RESPECT & UNDERSTANDING:** Diversity of the community & the organization
- **PREVENTION & PREPAREDNESS:** Through innovation & education
- **COMMUNICATION & COLLABORATION:** Across agencies & the community
- **INTEGRITY:** Ethical and honest behavior. Transparency with partners & public
- **DATA DRIVEN & SCIENCE BASED:** Effective decisions based on good science and accurate data

GOAL #1: HEALTHIEST PEOPLE

The people of the Bear River Health District will be among the healthiest in the state.

Promote Public Health Services

- Focus efforts on priorities that make a meaningful impact on public health, with a special emphasis on the Bear River Health District Community Health Improvement Plan (CHIP) priorities which are:
 - Improving **mental health** through prevention and by ensuring access to appropriate, quality mental health services.
 - Reducing **substance abuse** to protect the health, safety and quality of life for all.
 - Increasing **immunization rates** and reducing preventable infectious diseases.
 - Reducing **obesity** by promoting health and reducing chronic disease risk through the consumption of healthful diets and achievement and maintenance of healthy body weights.

Connect at-risk people with appropriate services

- Better educate the public of available services, and deliver appropriate services more efficiently to targeted populations.

Make data-driven decisions

- Evaluate and apply evidence-based data to guide programs toward improved outcomes.

GOAL #2: A GREAT ORGANIZATION

The BRHD will be recognized as a leader in public health for its excellent performance.

Strengthen the Public Health System

- Work with community partners to conduct a Community Health Assessment (CHA) at least every five years.
- Use the Mobilizing for Action through Planning and Partnerships (MAPP) framework to implement a Community Health Improvement Plan (CHIP).
- Evaluate success of the CHIP.

Enhance and Retain a Well-Trained Workforce

- Develop strong teams, promote inclusion, and prepare staff for future opportunities.
- Keep employees current with the skills necessary to perform their positions.
- Create an environment that enables employees to do their best work.
- Work with universities to provide public health internships for students.

Create a Culture of Quality Improvement

- Implement a department-wide quality improvement system.
- Train managers and staff on quality improvement principles and tools.
- Foster a culture of performance management with emphasis on quality outcomes; focus on performance improvement, including standard operating procedures and processes that adopt ongoing improvements.

Provide Excellent Customer Service

- Understand the needs of those we serve, including clients, partners, coworkers, and stakeholders, and work collaboratively to always provide excellent customer experiences.

Health Department

GOAL #3: COMMUNITY PARTNERSHIPS

The BRHD will strengthen relationships that will result in improved health of our citizens.

Strengthen partnerships with government agencies, organizations, health care providers, advocacy groups, and citizens to improve community health

- Establish new and expand existing partnerships with key stakeholders to improve the services provided to the community.
- Enhance relationships with cities and municipalities throughout the district to provide public health information to mayors, councils, and community residents.

Conduct or attend trainings to coordinate & improve services

- Coordinate with partnering agencies and individuals on continuing education training opportunities to assure a well-trained workforce.

Engage community partners in the planning, implementation, and evaluation of BRHD efforts

- Use the MAPP framework to implement a CHIP every 5 years.

GOAL #4: INCREASE ACCESS TO SERVICES

The BRHD will connect the community to services that are convenient.

Place facilities where they will provide the greatest impact to the community

- Provide services in remote areas of the Bear River Health District utilizing the new mobile clinic.
- Extend services to the south end of Cache Valley with the completion of a new satellite office.

Re-design website to increase online access to public health services

- Website to include electronic self-reporting, web-based classes, client scheduling, and access to permits, certificates and/or applications.
- Utilize website as a medium to promote program services to clients and partners.

Promote the newly designed health department mobile app to connect the community to public health services

- App includes what to do in an emergency, advice for staying safe, allows users to send a message to BRHD, and provides a forum for complaints.
